

DAILY INCUBATION OBSERVATION

Keep a record of incubation information each day.

Day	Date	Temperature	Humidity	Life Cycle Image	Observations
ex.	April 4, 2024	99.5°F	60%		Temperature and humidity are good! Egg 6 looks like it's bigger than the rest. I wonder why...

HATCH DAY RESULTS

It's Hatch Day! How many chicks hatched?
 What are their colors?
 Keep track of your observations here.
