Use evidence from the Pizza History Timeline to explain three ways Italy influenced the success of pizza.

Answers will vary but should mention 3 of the following:

- First signs of pizza making in Pompeii, Italy, where marble slabs were found in shops
- Pizzaiolos made pizza in Naples, Italy
- The colors of the Italian flag inspired the "Pizza Margherita"
- Italian immigrants brought pizza to America
- Italy housed American Soldiers during WWII where they fell in love with pizza, craving it when they returned to the United States

If you wanted to grow all the ingredients you needed to make your perfect pizza, which plants and animals would you need to have on your farm?
